

DISSECT A FLOWER

LEARN TO IDENTIFY THE DIFFERENT PARTS OF A FLOWER

- 1) Ask a grownup to cut flower in half
- 2) Carefully pull apart the pieces
- 3) Place the pieces into the correct box

This flower is a **FUSCHIA**
(You can use any flower,
the larger the better)

STYLE (the tip is the STIGMA)

FILAMENT (the tip is the ANTHOR)

SEPAL (this protects the petals and insides of the flower)

PETALS (usually brightly coloured to attract pollinators, like bees)
